## Experience The Amethyst BioMat

### Transform Your Health, Your Body and Your Life

What would it be worth if you could:

- Find Pain Relief from arthritis, joint pain and stiffness
- Experience Restful Sleep
- Reduce back and neck pain due to injuries
- Remove bodily toxins by balancing pH & dissolving acidic waste
- Improve Immune System Function
- Burn Calories and Lose Weight

Hundreds of years ago, people discovered and turned to heat therapy as a source of natural healing for many illnesses and discomforts. **Far Infrared Heat is simply and naturally rising to the top of health regime requirements** as evidenced below by both the professional and home use. The Amethyst BioMat™ **is FDA Approved.**

### Professional Use

A profitable addition to any healing modality

### Home Use

Multiple Home Use for friends and family

# The Future of Health and Well Being

- Chiropractic
- Acupuncture
- Massage
- Physical Therapy
- Reiki
- Skin and Body Care Professionals
- Waiting Room Preparation and Relaxation
- Anti Aging and Skin Care
- Relieves Pain and Stiffness
- Reduces Stress and Fatigue
- Strengthen the Immune System
- Burn Calories and Weight Control
- Aid Digestion and Elimination
- Detoxification and Cleansing

## What is the Amethyst BioMat ?

**The Amethyst BioMat™ system is a state-of-the-art FDA-approved medical device (U.S.F.D.A Medical Device No. 2954299) which delivers therapeutic Far Infrared Rays and Negative Ions, relieving pain and restoring balance and energy to the human body.** Many Insurance companies consider the Amethyst BioMat™ a viable treatment option for pain as well as other musculoskeletal problems.

The Amethyst BioMat™ was developed by a highly skilled group of scientists, medical professionals and engineers.

### It has three significant components:

1. State-of-the-art **Far Infrared Rays (FIR)** → **Nature's Miracle Light**
2. **Negative Ion** Technology → **Nature's Battery Charger**
3. The healing power of **Amethyst Crystal** → **Nature's Super Conductor**

This unique combination of components is what allows the Amethyst BioMat™ to deliver professional therapeutic results. It delivers the benefits of Far Infrared Sauna for a fraction of the price. It is a unique medical technology producing both Far Infrared and generating 6.8 microns of Medium "Human" Infrared. **This Human Infrared feature of the Amethyst BioMat™ makes it different from any other device on the market.** According to NASA research, **Human Infrared normalizes a variety of important physiological functions, especially glandular functions.**

**The Amethyst BioMat's™ primary gift to the human body is its ability to provide an environment in which the body is able to carry off the acidic waste as it was designed to do. As these wastes are removed, the body's vitality is restored.**

### Testimonial-

**The following statement is being offered by a BioMat owner who wanted to share their experience.**

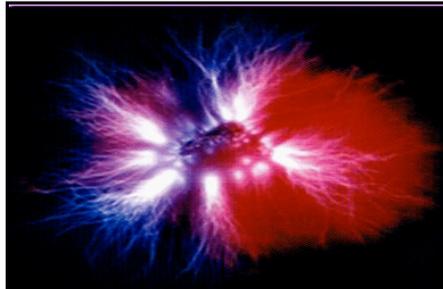

"Today I am writing to let you know how beneficial your BioMat has been to me. In March 2004 I was diagnosed with Prostate cancer... I had a stage 4 Tumor and a Gleason score of 8... In March of 2005 I was given a Terminal Diagnosis they said I had 18 Months to live... I used the BioMat for 6 Months on a regular basis. According to the Dr's my expiration date was September 06. Today I am sitting here writing this letter, alive and well. I saw my Cancer levels drop to an undetectable level after only 3 Months. I saw my Dr. on Friday June 22, 2007. He told me I am a Miracle. My levels have dropped to a point where my Cancer is basically gone."

## Key Benefits Using the Amethyst BioMat

**Far Infrared Ray**

**Negative Ions**

**Amethyst Crystal**

Benefits of Far Infrared Rays	Benefits of Negative Ions	Benefits of Amethyst Crystals
➤ <b>A Powerful Detoxifier</b> shown to <b>destroy cancer and viral cells w/out harming surrounding healthy cells</b>	➤ <b>Opens communication channels between all cells and parts of the body</b> (Nobel Prize in Physics 1991)	➤ <b>Amplifies Far Infrared Light 200X more powerfully than FIR by itself</b> (Super Conductor)
➤ <b>Deeply penetrates muscles for relaxation and healing, warming from the inside out</b>	➤ <b>Clears out free radicals and disease causing agents from the body</b>	➤ <b>Clears blockages and aligns the Chakras</b>
➤ <b>Revitalizes the biological function of cells</b>	➤ <b>Helps get rid of built up acids in the body</b> creating more alkaline tissues	➤ <b>Transforms lower frequencies to higher frequencies</b>
➤ <b>Increases blood circulation</b>	➤ <b>Purifies blood, revives cells</b>	➤ <b>Balances and stabilizes energies</b>
➤ <b>Promotes perspiration to cleanse toxins from the body</b>	➤ <b>Improves immune function, relieves pain and elevates moods</b>	➤ <b>Calms emotions and stress</b>
➤ <b>Relieves neuralgia, backaches and arthritis</b>	➤ <b>Nutrition is more fully absorbed</b> into the body, <b>wastes more easily expelled</b>	➤ <b>Stone of Vision – heightens intuition and psychic abilities</b>
➤ <b>Balances pH</b> by decreasing acidity ( <b>the main cause of aging and disease</b> )	➤ <b>Helps insomnia, stiffness, headaches, chronic constipation, purifies surrounding air and asthma symptoms are drastically decreased</b>	➤ <b>Relieves posture, bone and joint ailments</b>
➤ Puts people in <b>Delta Brainwave state</b> so they can <b>relax and fall asleep</b>		➤ <b>Helps heal the central nervous system</b>
➤ <b>Natural Weight Loss/Burns Calories</b>		

**People, who tried the BioMat anywhere from 5 to 30 minutes, gave these unsolicited comments:**

- "My Migraine headache disappeared."
- "My lower back pain is almost gone."
- "I no longer feel severe menstrual cramps."
- "The pain from my bladder infection is gone."
- "For seven years I have had numbness in a part of my lower back from a car accident. I am amazed that during my time on the BioMat I felt something in those two areas for the first time since the accident."

***The following statement is offered by a BioMat owner who wanted to share her experience.***

"I have been using the mini-BioMat when I practice Restorative Yoga Postures in a reclining position – i.e., Supta Baddha Konasana, Legs Up the Wall and Savasana; also, I am finding it to be useful for Pelvic Tilts, Gentle Bridge, even Shoulder Stand & Plough. Sometimes I turn over onto my belly as it is cooling down & I am finding it to be very soothing – especially for Manipura Chakra. Often, I sit on the BioMat and meditate and chant after Relaxation. It seems that the chants vibrate more clearly through me when I sit on the BioMat. Sometimes, I just use it plain and simple – for healing and relaxation. Thank you so much."

## What Makes the Amethyst BioMat Work So Well?

When Far Infrared Rays (FIR) are conducted through Amethyst Crystals, the Far Infrared wave length elongates, penetrating into the human body 5-7 inches.

- The **Amethyst Crystals amplify the Far Infrared Light 200 times more powerfully than FIR by itself.**
- **These rays**, not only benefit the skin and muscle tissue on the surface of the body, but **penetrate into deeper tissues. The FIR penetrates into the lymph glands, blood vessels, nerves, as well as key organs.**
- **These rays vitalize the biological function of our cells and increase circulation**
- It works **without electric coils, and no harmful electro-magnetic frequencies (EMFs).**
- **Infrared rays** which are at the opposite side of the spectrum are healthy kind of rays that **give you warmth and relaxation.**
- **Medical and therapeutic professionals have found the same infrared rays as in natural sunlight are generated in the RichWay BioMat Sleeping System by modern technology.**

You'll feel those tired muscles relax, as helpful dry heat not only warms the surface of your skin, but also penetrates into your skin for deep, soothing comfort. The gentle warmth of the **Amethyst BioMat gives you an overall massaging effect, soothing nerves and muscles with natural healing** as well as cleansing your body.

Unlike an electric blanket or heating pad, the **Amethyst BioMat™** does not get hot when it is turned on. However, if you lie down on it, it **warms the inside of your body** and the part of the pad making contact with your skin gets warm.

In addition, the **Amethyst BioMat™** delivers **Negative Ions**, which energize the body. **Negative Ions are the key to cellular communication and the metabolism of cellular waste. The Negative Ions also restore the blood's pH balance for optimal health.**

***The following statement is being offered by a BioMat Owner who wanted to share their experience.***

"I love my BioMat. I sleep on it all night. One hour at the top red and the rest of the night at one yellow. It has image HUGE changes in my health. I had VERY PAINFUL neuropathy and it is now barely noticeable. I also had extremely bad edema in my feet and ankles. Even with elevating them all night they would still be swollen every morning and they just got worse every day. Now, I wake up with my bones sticking out like every other person. By the end of the day, I may have some swelling but nothing like it used to be. I also had both hips replaced and a triple back fusion. The BioMat makes a HUGE difference in my pain level – pain free. I LOVE IT." ***C.L., Keswick, VA***

## How Are Far Infrared Rays Created In the BioMat?

The Amethyst BioMat™ features the patented Kurare Super Fiber from Japan. (U.S.F.D.A. Patent No. 1386560). **The method of generating FIR through the Amethyst BioMat™ is accomplished by:**

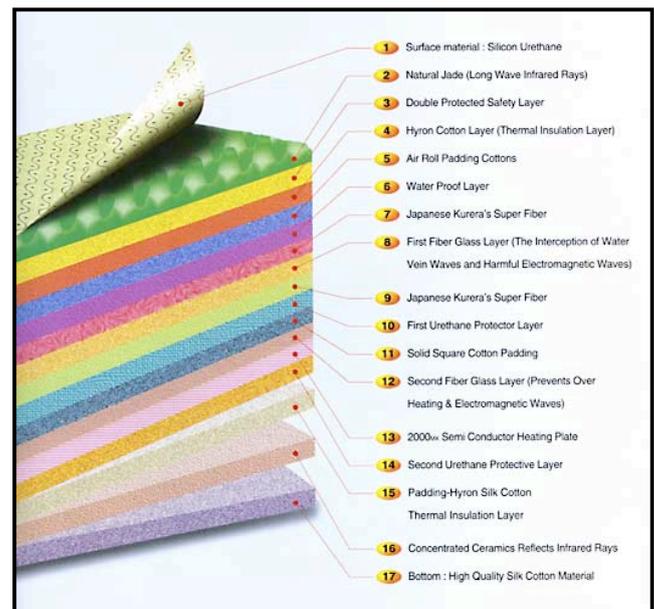

- **First putting pulses of energy (DC Current) through this patented carbon ceramic material,** (which reduces electrical consumption and works without electric coils) **this process creates Infrared Rays.**
- As the Infrared Ray passes through the Amethyst Crystals, **the crystals elongate the wave length and the Infrared becomes what is know as Long Wave Infrared or (FIR) Far Infrared Rays.**
- **The Kurare's Super Fiber Material generates Infrared Rays** the human body can easily absorb.
- The Amethyst BioMat™ comes with an **external control box where the AC current is converted to DC current, which is bio-electrically compatible with the human body.**
- This advanced technology **protects your body from the harmful AC current.**
- Other Infrared Saunas and devices utilize 120V AC Current which has been proven to be highly detrimental to human health, by disturbing the human biological field.

**The Soft Touch Control System has the most advanced IC Chip, which cuts off harmful Electromagnetic Waves.** The remote computer signals are conducted into the Amethyst crystal bed through a high technology messaging system. **All energies pass through an Electromagnetic Wave Interceptor (EMI), which blocks any harmful EMF from entering the BioMat and our human energy system.**

***The following statement is being offered by a BioMat Owner who wanted to share their experience.***

"I took a really bad fall, slamming my hands and arms on the cement to brace my fall. I hit the cement with the full force of my body weight. My hands and arms took the first impact, and then my chest, stomach and knees followed. In the past, this kind of fall would have resulted in severe pain, followed by massive bruising for at least 2-3 weeks. That Monday night I laid on the BioMat for one hour on a high gold setting. I awoke Tuesday morning, with severe pain in my hands, neck, arms back and knees. I immediately laid on the BioMat for another hour that morning and another hour in the evening on a high gold setting. Wednesday morning when I got up, all the pain was gone and the bruising had stopped. By Friday, the bruising was gone completely. Unbelievable!!!"

## What are Far Infrared Rays (FIR) and Where Do They Come From?

**FIR or Long Wave Infrared Rays are the safest and most beneficial light waves for the human body, from the sun. FIR is a form of energy which is part of the electro-magnetic light frequency of sunlight not visible to the human eye.** FIR Technology was first brought to us by nature herself. All living things emit FIR. Traditionally we've gotten our daily dose of FIR from sunlight. But these days it is getting much harder to get our daily dose of FIR from the Sun. There is pollution which blocks the FIR from reaching us and with most of us being indoors or in the car, it is even harder for us to get our daily dose of FIR.

**The first research** on isolating or mimicking Far Infrared Light was **done through NASA in the 1960's. NASA in the early 1980s concluded infrared therapy would be an ideal way to stimulate cardiovascular function during long space missions. Recently, several scientists in Japan extended this technology** and designed a way to create fibers to be worn on the body which emit wavelengths the same as natural Far Infrared Light from the sun, yet more concentrated.

**A breakthrough in 1994 allowed the production of the "Far Infrared" Wrap.** They were created for use on areas such as the waist, knee, elbow and wrist. The manufactures even created a blanket and a mattress to bring the far infrared benefits to the entire body while sleeping or relaxing. *Source: Warming Up to Far Infrared by Dr. D. J. Fletcher.*

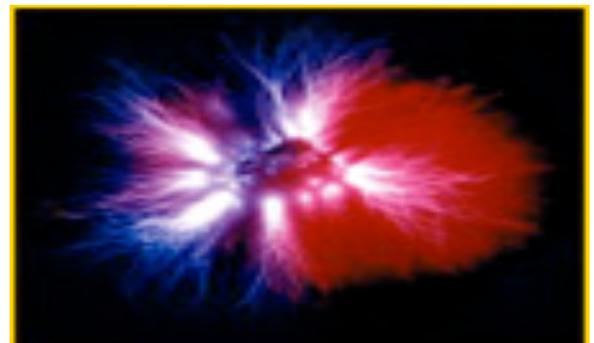

### KIRLIAN Picture – Natural Infrared Ray

#### **HEALING WITH A BEAM OF LIGHT - DEEP IMPACT POWER**

**Long Wave Infrared Rays (FIR) not only warm our bodies, but they stimulate various bodily functions.** They can make our bodies feel fully charged. When Far Infrared rays are beamed into the body, they are absorbed by the body and they resonate through it, similar to the sound and energy waves of a bell when it is struck. Far Infrared Rays can penetrate deeply into our bodies, warming our body from the inside out, which stimulates our body.

#### **THE FUNCTION OF LONG WAVE INFRARED RAYS**

**Long Wave Infrared Rays penetrate 14 – 15cm into the body.** Therefore, **these rays not only benefit the muscles on the surface of the body, but all cells, including blood vessels, lymph glands, and nerves in the deepest recesses of our body.** These Long Wave Infrared Rays provide a heat source which relieves shoulder pain, lumbago, and fatigue in our muscles. Moreover, the heat helps us perspire and eliminate wastes such as urea, nitrogen, uric acid, sodium, and chlorine (which can cause kidney infections and other problems in our bodies).

# The Future of Health and Well Being

## How are Negative Ions created in the Amethyst BioMat?

### KIRLIAN Picture – Negative Ion

**The Negative Ions, delivered through the Amethyst BioMat™, are delivered directly to the body through the skin's surface via conduction.** The direct conduction of negative ions allows for an immediate response and change in the body's electrical field for 100% of people. The cell channels are activated, which allows for a rapid return to the body's optimal physiological state. This greatly differs from ambient negative ions delivered through the popular negative ion generators, which are used for cleaning the air. NASA reported only 25% of the people were positively affected by these types of Negative Ion generators.

When the Kurare Super Fiber interacts with Direct Current (DC) energy, the potential field surrounding the material is converted to a negatively charged field. **When electricity is slowed down and converted from Alternating Current (AC) to Direct Current (DC) energy, the Kurare Super Fiber generates a discharge of Negative Ions in the air and converts positive ions in the body into Negative ions inside of the body.** When a charged field of negative potential is applied to an insulated body, calcium and sodium minerals in the circulating blood get ionized. **This results in changing an acidified body to an alkaline body.**

## What Are Negative Ions and Where Do They Come From?

Often referred to as 'the vitamins of the air', an **Ion is a particle which has electricity. Ions are molecules which have gained or lost an electrical charge. They are created in nature as air molecules break apart due to sunlight, radiation, moving air and moving water.**

<http://www.webmd.com/balance/features/negative-ions-create-positive-vibes>

**You may have experienced the power of Negative Ions when you last set foot on the beach or walked beneath a water fall.** While part of the euphoria is simply being around these wondrous settings and away from the normal pressures of home and work, **the air circulating in the mountains and near the ocean is said to contain tens of thousands of Negative Ions. At a waterfall, you will experience over 100,000 Negative Ions per cubic centimeter.** On the other hand, if you're on an LA freeway or in your office, you may experience only 100 Negative Ions per cubic centimeter or less, maybe even none. **After a rainstorm there are lots of Negative Ions in the air.**

**Negative Ions** are found in the air and **are a major element providing energy to the human body.**

**Negative Ions open ion channels** which **optimize cellular communication** and **support all bodily functions** to work better. (Nobel Prize in Physics, 1991)

## Scientific Properties of Amethyst

Far Infrared Rays (FIR) refracted through amethyst crystals organizes FIR into geometrical patterns with higher bio-compatibility than just FIR by itself. **Korean researchers propose the addition of the amethyst allows for a greater increase in the utilization of the light by the human organism.**

- **The "Amethyst Effect" - Amethyst is the only substance which clearly changes the spectrum of infrared light. The refraction of the amethyst crystal actually *elongates* the infrared light wave, transforming it into a *long wave infrared* or a *far infrared wave*.**
- These refracted light wave forms mimic the sound wave patterns created by the human voice. The body has an innate ability to entrain itself with this resonance. This resonance helps support the body's innate intelligence and capacity to heal.
- **The "Amethyst Effect" was scientifically demonstrated through spectral analysis demonstrating a change in infrared light when refracted through amethyst crystals. Scientists experimented passing far infrared light through a variety of substances, including various gems, glasses, and plastics. Of all these substances, amethyst was found to be the most steady and accurate conductor of far infrared light.**
- Amethyst crystals take 20 millions years to form. While no theory has yet been proven, Scientists hypothesize the infrared light passed through the amethyst releases *over 20 million years of information* which is made available to the human body to facilitate the healing process. This is especially amplified by the BioMat's 10Hz Infrared sensor. The 10Hz Infrared Sensor in the BioMat has been demonstrated to carry information (like the light at the end of your TV remote control, 10Hz). When this 10Hz Infrared Sensor was added to the BioMat the testimonials for healing were greatly increased as compared to without the Sensor.

The field of Far Infrared Crystallography explains this effect in further detail.

## Esoteric Properties of Amethyst

- **Nature's Balancing Transformer** - Amethyst has the ability to transform lower vibrations into higher vibrations and acts as a healing energy at all levels of the mind, body, and spirit.
- **Amethyst has been universally accepted as a healing crystal since ancient times.**
- By transforming energies on all levels, amethyst is helpful in clearing all types of blockages and in aligning the chakras.
- **Far Infrared Rays become 200 times more powerful when past through amethyst crystal (powerful superconductor), and more bio-compatible to the human body. Amethyst is scientifically proven to deliver the steadiest, most absorbable long wave far infrared rays.**
- **Amethyst's healing properties:**
  - Relaxes the mind and reduces stress
  - Increases stamina and endurance
  - Supports deep meditation
  - Enhances intuition
  - Promotes emotional balance
  - Helps release addiction

## Scientific Properties of Tourmaline

---

- As a mineral, Tourmaline has recently become the focus of research at universities and research centers worldwide.
- The reason – **Tourmaline is the only mineral on the earth to carry an intrinsic electrical charge. It is also a natural (non-manufactured) source of a high amount of negative ions and far infrared (FIR) rays.**
- **Tourmaline is also known to be helpful for improving circulation, relieving stress, increasing mental alertness and strengthening the immune system function.**
- Research found even though tourmaline was broken down in smaller pieces, a positive and a negative electrode existed on each end of the crystal, and the electrodes never disappeared unless tourmaline was boiled near 1000°C.
- When researchers connected the positive and negative electrodes of tourmaline crystals to each other, they detected an (0.06mA) electric charge.

Source: *(Niwa Institute for Immunology, Japan Int J. Biometeorol 1993 Sep; 37(3)133-8).*

## Esoteric Properties of Tourmaline

---

- Tourmaline has a very specific message and it is, "Align yourself with the forces of light and channel this radiance onto your world and into your life."
- **Black Tourmaline, specifically, deflects negative energies instead of absorbing them. It helps form a shield immunizing one against the effects of harmful physical or psychic influences.**
- Tourmaline can also be used to neutralize one's own negative energies, i.e. anger, resentment, jealousy, insecurity, etc.

## Amethyst BioMat Product Description

There are Five (5) sizes available for use: All Prices quoted in \$US dollars  
(Please go to <http://www.xe.com/ucc/> for Australian Dollar conversion)

### BioMat PROFESSIONAL

**BioMat PROFESSIONAL:** 27.56" x 74", Weight 32 lbs.  
The most popular size for professionals, it fits on a massage/treatment table for all purpose functionality and ease of mobility. This technology is very beneficial in enhancing the treatment protocols of **Medical Doctors, Acupuncturists, Chiropractors, Dentists, Spa Treatments, Massage Therapists, Stress Management, Pain Management, Naturopaths, Polarity Therapists, Psychiatrists and General Wellness Programs.** It is also great for home use for family and friends.

**The BioMat Professional Package** comes with a Travel Case, 100% Cotton Padded Cover and the Amethyst BioMat Tourmaline Pillow, which features a therapeutic shape to provide additional support for your neck while comfortably cradling your head

**BioMat Professional Package**  
Cost: **\$1,700** plus Shipping

### BioMat MINI

**BioMat MINI:** 17" x 33", Weight, 14 lbs  
A small portable size for travelling, the car, waiting rooms or for localized therapy. For effective full body coverage, we suggest the larger sizes. **Also, the Mini BioMat is great for your pets.**

Cost: **\$750** plus shipping

### BioMat SINGLE

**BioMat SINGLE:** 39.37" x 77.81", Weight, 60 lbs  
Allows for more Elbow Room and fits nicely on a Twin Bed. (Pillow Sold Separately).

Cost: **\$2,400** plus Shipping

## Amethyst BioMat Product Description

---

### BioMat QUEEN

**BioMat QUEEN:** 55.11" x 77.81". Weight 75 lbs.  
Can Accommodate 2 (two) people comfortably. The control Box regulates temperature and time separately on the Right and Left Sides of the BioMat.

**Cost: \$3,200** plus Shipping

### BioMat KING

**BioMat KING:** 72.65" x 77.81". Weight 130 lbs.  
Can Accommodate Two people comfortably. The control Box regulates temperature and time separately on the Right and Left Sides.

**Cost: \$3,840** plus Shipping

### Amethyst & Tourmaline BioPillow

**Amethyst & Tourmaline BioPillow:** 12" x 19" & 3"-4" thick. The BioPillow contains rows of both Amethyst and Tourmaline on an outside 100% cotton zippered cover. Inside is a natural latex rubber, ergonomically-designed contour pillow. This ergonomic design elongates the spine and opens the flow of cerebral spinal fluid. The crystals naturally deliver FIR and Negative Ions to the head and mind, keeping the head area cool and relaxed while you heat the body.

**Cost: \$250** plus Shipping

### Distributor Kit

#### **Distributor Kit**

Contains everything you need to start selling the BioMat including several brochures, order forms, and information material. Also gives you one Business Center (if you have not ordered a Bio-Mat).

**Cost: \$27.95** plus Shipping
